

the HANDLE HANDLE™

There Is **NO** Wrong Way
To Put On the Handle Handle

2 THINGS TO KEEP IN MIND

FREE

1. Your bag handles must be in the centre of the Handle Handle
2. Keep at least 3 layers of the Handle Handle under your bag handles

Here's 1 way to put on the Handle Handle

Loosen a new Handle Handle by pulling it open
with 2 hands

(Remember to look at the coupons)

STEP 1

STEP 2

Release the end with the square corners while continuing to hold the end with the rounded corners allowing the Handle Handle to roll itself back up

STEP 3

Place the bag handles * into the opening of the Handle Handle

**If using a cloth bag - Place only ONE handle into the opening, making sure the opening is facing the other cloth bag handle*

STEP 4

Pull up on the end with the rounded corners slowly and gently

STEP 5

The inside end of the Handle Handle forms a hook that will catch the bag handles

Cloth Bags - Expand this hook to fit as many remaining cloth bag handles as needed at this point

STEP 6

Hold the hook end of the Handle Handle in place and thread the rounded end of the Handle Handle under the hook end and through the bag handles

STEP 7

Spin the Handle Handle to tighten, pinching the sides if necessary

REMEMBER

1. Your bag handles must be in the centre of the Handle Handle
2. Keep at least 3 layers of the Handle Handle under your bag handles
